Emerging Front-End Developer and AI Engineer

PROFESSIONAL SUMMARY

Front-End Developer and Integration Engineer with hands-on experience in building responsive web platforms, integrating front-end applications with backend services, and developing secure digital systems for academic and institutional environments. Skilled in React.js, JavaScript, system integration, and UI performance optimization. Proven leadership through academic and social service initiatives.

SKILLS

Programming Languages: HTML, CSS, JavaScript, Python

Frameworks & Libraries: React.js, Tailwind CSS

Development Tools: GitHub, Version Control, API Integration

Core Competencies: Front-End Development, Team Leadership, Problem Solving

EXPERIENCE

WebOps Team, Velammal Engineering College

2025 – 2026

Member & Front-End Developer / Integration Engineer

Chennai, India

- Developed and deployed responsive web interfaces using HTML, CSS, JavaScript, React.js, and Tailwind CSS for institutional platforms
- Integrated front-end applications with backend services to ensure secure data flow, session handling, and performance optimization
- Collaborated with cross-functional teams to debug system issues and enhance website reliability and user experience
- Contributed to deployment workflows and version control processes using GitHub

PROJECTS

Velammal Engineering College Website

- Designed and maintained scalable React.js UI components for academic and administrative web modules
- Integrated dynamic content systems to support real-time updates and modular page rendering

QA Examination Portal – Velammal Engineering College

- Built a secure web-based examination platform with user authentication and session management
- Implemented automated submission workflows and backend integration to improve exam reliability and system efficiency

Emotional Plant Pot – An IOT Based Plantation Learning System

- Developed an IoT-based smart plant system using sensors to monitor soil moisture and environmental conditions in real time.
- Implemented an intuitive emotion-based visual interface (happy/sad/thirsty) to simplify plant care and promote user engagement without relying on mobile apps

Emotional Detector for Children

- Developed a Python-based facial emotion recognition system for real-time classification and analysis
- Designed a front-end dashboard for visualizing emotional data and generating user reports

EDUCATION

Velammal Engineering College2023 – Present

Bachelor of Technology in Artificial Intelligence and Data Science

- Coursework includes Artificial Intelligence, Data Analytics, Web Development, and System Design

Velammal Vidhyashram2022 – 2023

Higher Secondary Education – 87%

- Strong academic foundation in Mathematics, Science, and Computer Studies

LEADERSHIP & CO-CURRICULAR ACTIVITIES

Youth Red Cross, Velammal Engineering College

Chairman2025 - Present

- Lead student volunteer teams in organizing community service, blood donation drives, and public awareness programs
- Oversee event planning, coordination, and institutional collaboration for social initiatives

Joint Secretary2024 – 2025

- Managed documentation, volunteer coordination, and logistics for college-wide social service programs
