PROFESSIONAL SUMMARY

Aspiring AI and backend development professional pursuing B.Tech in Artificial Intelligence and Data Science, seeking an entry-level technical role where I can apply my skills in backend engineering, machine learning, and software development to build scalable systems, contribute to real-world projects, and grow through continuous learning.

EDUCATION

Velammal Engineering College	2023 - Present
B.Tech, Artificial Intelligence & Data Science, 7.79/10	
Bhaktavatsalam Vidyashram (CBSE)	2022
Higher Secondary	
D.A.V. Senior Secondary School (Boys)	2020
Secondary	

SKILLS & INTERESTS

Languages: Python, HTML, CSS
Frameworks / Libraries: TensorFlow, DeepFace
Data / Tools: PySpark, Pandas, NumPy, OpenCV
Developer Tools: VS Code, Cursor, Anti-gravity
Interests: Game Development

PROJECTS

velammal.edu.in (Live Website Platform)	2025 - 2026
- Working on backend development for the official live website platform. - Developing scalable REST APIs using modular controllers and middleware architecture. - Maintained structured payload formats and handled insert/update/delete workflows for admission modules. - Improved backend stability through validation, exception handling, and consistent API responses.	

QA Examination System	2025 - 2026
- Developed backend modules for a SHL-style online examination platform. - Built secure APIs for authentication, exam session management, test submission, and activity logging. - Implemented validation workflows and database operations to ensure reliable exam processing.	

Aura QC
- Developed an AI-based quality inspection system for automated defect detection. - Designed to improve inspection accuracy and reduce manual quality control effort.

Facial Expression Detection System
- Built a real-time facial emotion recognition system using DeepFace, OpenCV, and Tkinter. - Captures emotions, stores session logs, and generates reports for analysis.

Trials of Ascendence
Game project focused on gameplay systems, player mechanics, and level design using Unreal Engine.

CERTIFICATIONS

Introduction to Game Design
PySpark Certification Course
Natural Language Processing

ACHIEVEMENTS

3rd Prize at Tech Expo 2026 – Velammal Engineering College: Presented Emotional Plant Pot, an innovative mini-project using facial emotion recognition. 2026

VOLUNTEERING

Media Manager
Youth Red Cross (YRC) — Velammal Engineering College

- Handled professional social media accounts of YRC VEC.
- Managed information retrieval activities demonstrating leadership and data handling skills.
